

## S3 CALM

HYDROFACIAL MACHINE Calming serum

Concentrated serum to professional use. Proteins and Vitamins B3 and B6 that deeply hydrate and nourish the skin.

### BAICALEINA

**Baicaleína:** it is a flavone that is part of the flavonoid group.

The antioxidant properties are the best known since all flavones have this effect.

One of the peculiarities is that, in addition, it also has anti-inflammatory effects.

### CALENDULA OFFICINALIS EXTRACT

#### Reepithelizing and wound healing activity

This is one of the most extensively used actions of calendula. It is due to the presence of polysaccharides (mucilage), flavonoids (especially quercetin-3-O-glycoside), triterpenes and carotenes. •**Moisturizing activity:** This activity of calendula is due to its saponin and mucilage content. These active principles have moisturizing properties (water retention and water release to the medium). Due to its moisturizing activity, Calendula is ideal for formulating cosmetic products for the dry, irritated or delicate skin. •**Anti-inflammatory activity:** Calendula is highly recommended for sensitive and/or irritated skin.

### HAMAMELIS VIRGINIANA

Powerful vasoconstrictive action activity by its high flavone heterosides. Phlebotonic and vasoprotective. Reduces blood capillaries permeability.

### CAMELIA SINENSIS

Tea Soothing thanks to its high amount flavones, isoflavones, flavonoids, catechins and tannins:

Substances with antioxidant and anti-inflammatory properties. Get protected and soft skin.
